Rachenitsa!

The sound of bagpipe filled the air. The crowd stood still in expectation. Posing for a while against each other, the dancers jumped simultaneously.

Dabaka moved with dexterity to Christina. She gently ran on her toes passing by him. Both looked at each other from head to toe as if wanting to show their superiority and continued their dance. Christina waved her white handkerchief, swayed her white neck like a swan and gently floated in the vortex of sound, created by the merry bagpipe. Her face turned hot…

Dabaka was in complete trance. With hands freely crossed on his back he moved like a deer performing wondrous jumps in front of her … Then, shaking his head to let the heavy sweat drops fall from his face, he made a movement as if retreating. Stalking his every step, Christina flew gently towards him, finding herself very close to him, feeling his breath and the warmth of his hot face. Little by little he moved away and unconsciously attracted her with his dance.

Superiority spayed from every step he made and Christina started to fall under his power. Enchanted she tried to 'fight back', but after one hour she stopped and whispered panting with last efforts: 'I can’t any longer… He overplayed me!'

From the Windmill,
written by one of the most famous Bulgarian classic writers Elin Pelin in 1902.

Ferrous oxides give to the cape a crimson color. It is compared to a blazing sward, cutting the greenish-blue waters of the sea and the vertical sides make it impressive and inapproachable. Its name Kaliakra means 'a beautiful cape'.

Many legends are related to the cape's name. The most popular story relates of how 40 girls with hairs and arms entwined jumped into the sea to evade falling into Ottoman hands. Today an obelisk called 'The gate of the 40 maidens' is erected in the entrance of the Kaliakra Cape. The discovered remains of the antiquity are exhibited in a small archaeological museum.

The Eastern Church was built in the 10th century, then enlarged at the beginning of the 13th century by Sebastocrator, the whole building being finished with a further expansion to the west in the middle of the 19th century. The church owes its world fame mainly to its frescoes from 1259. They form a second layer over the paintings from earlier centuries and represent one of the most complete and well-preserved monuments of Eastern European medieval art. A total of 89 scenes with 240 human images are depicted on the walls of the church.
Rila Monastery was founded in the 10th century by St. Ivan Rilski. Madara was the primary sacred place of the Bulgarian state before Bulgaria’s conversion to Christianity in the 9th century. Plovdiv

Plovdiv (in ancient times known as Philippopolis and Trimontium) is the second largest city in Bulgaria, situated on the two banks of Maritsa River. Its unique location on these ancient crossroads has stimulated strong cultural and political influences from East and West civilizations, and yet maintained its unique cultural identity. One of Europe’s oldest cities, it was originally a Thracian settlement before becoming a major city ruled by Greeks and Romans in Antiquity. In the Middle Ages, it retained its strategic regional importance within the Byzantine and Bulgarian Empires. Being older than most of the oldest towns like Rome, Athens, Carthage or Constantinople, an almost contemporary of the ancient city of Troy, Plovdiv is a town built upon layers of towns and a culture developed upon layers of cultures. The city has historically developed on seven syenite hills,
some of which are 250 meters high. Because of these seven hills, Plovdiv is often referred to in Bulgaria as 'The City of the Seven Hills'.

Plovdiv is a picturesque town, with many parks and gardens, museums and archaeological monuments. Its old part, called the Old Town, with houses from the National Revival period (18th-19th century), is an imposing open-air museum situated on the three hills of the ancient Trímontium. One of the most remarkable sights of the town, the Ancient Theatre (a well-preserved Roman theatre), is located there and is still used for open-air performances.

Plovdiv hosts various economic and cultural events such as the Plovdiv International Fair, the international theatrical festival 'A scene on a cross-road' and the TV festival 'The golden chest'.
Golden treasures of Bulgaria

In Antiquity Bulgarian lands were inhabited by Thracians. They have left us amazing artifacts – unique stone tombs with murals and precious golden and silver treasures.

The golden treasure of Panagyurishte

It is a Thracian treasure excavated in 1949 near the town of Panagyurishte. The famous Panagyurishte Golden Treasure is a Thracian treasure made of 23-carat, pure solid gold with total weight of 6,164 kg. It comprises of a royal feast dinner set of 9 vessels with original shape and decoration. There are rhytons with the shape of animal heads and heads of goddesses. The jugs, amphoras and phials are decorated with scenes from the 'Iliad', faces and animals.

The golden treasure of Valchitran

The Valchitran golden treasure was unearthed in 1925 in the village of Valchitran, Pleven. The biggest golden treasure known to the Bulgarian archaeology – 12.5 kg of pure gold with natural alloys of silver, copper and iron was found by chance while digging up a vineyard. A very interesting fact regarding the small cups is that the master goldsmiths made them in such a way that they would stand in upright po-
sition only when filled with liquid. Probably we will never find out the right answers to our questions but the Valchitran gold treasure gives us the opportunity to touch on antiquity in a unique and mysterious way. The treasure dates back to the end of the Bronze Age, i.e. to the 16th – 12th century BC.

**The Golden Mask of tsar Teres**

Archeologists have discovered a 2,400-years old golden mask that was likely made for a Thracian monarch’s funeral. The mask depicts a full face with moustache and beard. The rare artifact is made of 600 grams of solid gold and 'is without paragon in archeology,' according to Georgi Kitov and his team that unearthed the artifact in the summer of 2004 near the village of Shipka, in the so called Valley of Thracian Kings. The mask may belong to King Seutus III, the Thracian king who ruled in the fifth century BC. Besides the mask, archeologists also found a golden ring showing a rower, and many bronze and silver vessels. No remains have been found but archeologists continue to excavate the tomb.

Up on Entry

- All children entering Bulgaria will need to have their own passport. Children included in their parents’ passports will only be allowed in if the passport also contains their photograph.
- Upon entry into Bulgaria, foreigners should declare in writing the purpose of their stay and the address at which they will reside. To this end they should fill in a registration form. Exempt of that are the citizens of the European Union member-states and the citizens of the countries in the European Economic Area.
- Foreigners entering Bulgarian territory on a motor vehicle have to present a document of ownership for that vehicle, if such ownership is not explicitly shown in the vehicle’s registration documents.
- All foreign nationals who have entered the territory of Bulgaria are obliged to register within 48 hours after their entry into the country. They have to register their address in Bulgaria either at the services for administrative control of foreign nationals, or at the nearest district police station, depending on the address where they are staying. This registration includes: full name, date of birth, citizenship, as well as the number and series of their identity documents. Address changes also have to be reported within 48 hours.
- Natural persons or legal entities, which provide shelter to foreign nationals, are obliged to notify within 48 hours either the relevant service for administrative control of foreign nationals, or the nearest district police station. If a foreign national is staying in a hotel, the receptionists are obliged to perform this duty. If a foreign national is paying a private visit, the Bulgarian host is obliged to register the foreign guest.
- When you travel to any Bulgarian city, and you plan to stay for longer than 2 days, you should go to the local police station and fill in address registration.
- You can find contact details of Bulgarian embassies, consulates and missions on the website of the Ministry of Foreign affairs: http://www.mfa.government.bg/
Residence and work permit

- All foreigners are required to obtain a residence permit if they are to stay for a certain period of time, no matter the reasons for being in the country. In order to be an eligible applicant for a residence permit, you should obtain a Type D visa before you travel to Bulgaria. The national authority responsible for issuing the permit is National Service 'Police' (under the Ministry of Interior, http://www.mvr.bg), section 'Traveling in Bulgaria'.
- If you are a citizen/family member of a citizen of the EU, the European Economic Area Agreement, Confederation Switzerland, you might find it useful to consult the European Union Citizens and Members of Their Families Entry and Residence in and Departure from the Republic of Bulgaria Act: http://www.mfa.bg/en/ > Consular Services > International Adoptions.
- If you are not a citizen / member of family of a citizen of the EU, the European Economic Area Agreement, Confederation Switzerland, you might find it useful to consult the Law for Foreigners in the Republic of Bulgaria, which can be downloaded from the website of the Ministry of Interior: http://www.mvr.bg/ > Legal Framework > Laws and Rules.
- The law, regulating the issuance and using Bulgarian identification documents, Law for the Bulgarian Identification Documents, can be downloaded from the website of the Ministry of Interior: http://www.mvr.bg/ > Legal Framework > Laws and Rules.
- Under the Foreign Nationals Act, foreign nationals who have been allowed to reside permanently in Bulgaria are allowed to work under the same conditions, which are valid for Bulgarian nationals. Foreign nationals with short- term or long term residence permits on the territory of the Republic of Bulgaria, may enter into labour contracts only with a work permit issued by the Ministry of Labour and Social Policy. The National Employment Agency (NEA) is the authority responsible for issuing work permits. You might visit the NEA website for more information: http://www.az.government.bg/
Health Insurance

- If you are a citizen of an EU member state or of Iceland, Liechtenstein, Norway, and Switzerland, and you plan to stay temporarily (usually up to 90 days) in Bulgaria, you might consider obtaining the European Health Insurance Card. Presentation of the European Health Insurance Card guarantees you reimbursement of the medical costs on the spot, or soon after your return home. For more information, see: http://ec.europa.eu/employment_social/healthcard/index_en.htm
- If you are not a citizen of any of these countries, you should check with your national authorities if you are entitled to free or subsidised health treatment in Bulgaria as part of a reciprocal health agreement between your home country and Bulgaria. If you are not, it might be a good idea to obtain health insurance for the period of your stay in Bulgaria.
- If you plan a longer stay in Bulgaria as a student/researcher, you are entitled to the same health care rights as a Bulgarian citizen if you are part of an academic program (usually leading to a degree) approved by the Ministry of Education, Youth and Science. You should check this information with the educational institution you are planning to attend.

Still public health care security does not cover all kinds of medical services, so you might consider supplementing it with private health insurance.

Driving license

Your home-country driving licence may be used for up to one year in Bulgaria, after which it has to either be replaced with a Bulgarian one or you have to re-take driving tests to get a Bulgarian licence while keeping your foreign one.
Currency & Exchange & Cards

The official currency is the Bulgarian Lev. It is fixed to the Euro. One Lev is worth around 0.50 euro. The Lev is divided into 100 stotinka. You could see banknotes and coins on the website of the Bulgarian National Bank: http://www.bnb.bg

You can exchange money at banks and independent currency exchange bureaus. Avoid exchange offered by people in the street as they are usually not certified to perform this action. The usual banking hours are 09:00-16:00, while independent bureaus work until 18:00, some of them even 24 hours. There is an extensive ATM network, so you can obtain cash anytime almost anywhere. All major European and North American debit cards could be used to withdraw money. The number of retailers accepting card payment is growing. However, you still need to carry cash, especially in rural areas.

- **Taxi**
  Ask your local friends about the cheapest and the most reliable companies in the region. Make sure you read the tariffs before you get into a car. They are posted on windscreens. Once you are in, make sure the driver has started the taximeter.

Accommodation

It is easy to arrange a short stay in Bulgaria. You may search the Internet for hotel and hostel accommodation. Renting private accommodation is a good option for people who love peace and quiet. These might vary a lot in price and quality. Surfing the Internet for a private apartment to rent will probably return the most expensive options.

A lot of reasonable to rent property is usually advertised in newspapers. Agencies will typically charge you half a month’s rent. Bear in mind that most of the rented apartments are unfurnished. If you need to later provide official proof of your expenses, you should make sure your landlord is willing to provide you with the necessary papers.

Electricity

Household electricity is supplied at 220/240 volts (V) with a frequency of 50 Hertz (Hz). If you are moving from a country with a 110 V supply, your electrical equipment will require a converter or a transformer to convert it to 240 V.
Water

Tap water is safe to drink in most cities, while in many rural areas it is used only for washing. If you have some doubts, buy mineral water. Bulgaria is famous for its mineral water, which is not only of high quality but of reasonable price. Water shortages are rare in towns and cities, but they are common in some rural areas.
Musical Instruments & Food & Festivities

The caval

The caval is an ancient folk instrument carved in wood, sometimes dogwood, cherry, maple or plum but mainly of yew. You can see both small cavals (ordinary) and large cavals (up to one meter in length) in Bulgaria. The caval can be played as a solo or an accompanying instrument. It harmonizes well with the gadulka, gaida and tambura and performs a basic role in folk orchestras. In modern times, the caval has found a new significance. By improving their playing technique, some musicians have succeeded in using the caval to interpret jazz music and in creating duets with the human voice (see Teodosii Spasov). Recently, composers have written new symphonic works for caval and orchestra.

The gaida

The gaida is a Bulgarian folk instrument that can be seen in two varieties: the large bagpipes, called the kaba with a low register; and the small one called the djoura with a high-pitched register. The most famous is the so called Rhodope (mountain) gaida, which is used as a lyrical accompaniment of Rhodope songs and melodies.
The tupan
(bass drum)

The rhythmic deep sound of the tupan can be heard during weddings, village dances, the performances of kukeri (see Kukeri) and nestinari (see Nestinari). The tupan is primarily an accompanying instrument that marks the rhythm but it can also be played as a solo instrument. Well-tuned and with good acoustic construction, it has a beautiful tone. An accomplished musician can get sounds from it not only by hitting the different sections of the drum heads but also by hitting the hoops and the body or even by rubbing the skins (friction percussion).

The gadulka

The gadulka is a simply-made Bulgarian folk instrument of the chordophone family, known mainly in Thrace, the Balkans and central Bulgaria. Sound is produced by rubbing its strings with a bow. The Gadulka is an important instrument in the traditional Bulgarian Horo round dances.
The horo

Horo is a traditional Bulgarian folklore round dance. There is a plethora of horo varieties around the country depending on the regional specifics. The most popular type of horo dance is called 'Pravo horo' and is performed by group of people (there is no limit to the number of people) holding each other to form a circle. The movement is 2 steps forward, 1 backward.

Horo is played on weddings, local festivals and on New Year’s Eve. It is mainly played on big holidays or family gatherings - such as weddings for example.

Several years ago the longest horo took place in Alexander Nevski Square in Sofia, involving more than 13 000 participants.
Nestinari – fire-dancers

This is a custom that can be seen only in some villages between Strandzha and the Black Sea, around Bourgas. It is observed on the holiday of St. Konstantin and Elena (21st of May), and sometimes during some of the local village fairs and the church/patron saint’s days.

A basic element of the custom is the dance in fire (glowing embers). The whole village takes part in the celebration but it is only the fire-dancers that participate in the ritual dance. They are chosen by the saint who is patron of the holiday. The dancers are able to 'see' his face, to 'hear' his voice and his spirit is transferred in them and on his behalf they can interpret omens and give guidance to people.
Baba Marta – Grandma March Day – martenici

Martenitsa is a small piece of adornment, made of white and red yarn and worn from 1\textsuperscript{st} of March until around the end of March (or the first time an individual sees a stork, swallow or budding tree).

The name of the holiday is Baba Marta. 'Baba' is the Bulgarian word for 'grandmother' and 'Mart' is the Bulgarian word for the month of March. Baba Marta is a Bulgarian tradition related to welcoming the upcoming spring. The month of March, according to Bulgarian folklore, marks the beginning of springtime. Therefore, the first day of March is a traditional holiday associated with sending off winter and welcoming spring.
Kukeri - mummers

On New Year’s Eve and Sirni Zagovezni (40 days before Eastern) in Bulgaria special rituals called Mummer’s games take place. The Mummer’s games are performed by men only. They put on special masks.

Some of the masks have two faces. On one of the sides the nose is snub and the face is good-humored and on the other the nose is hooked and the face is ominous. Those masks symbolize the good and the bad which coexist in the world. The mummer’s games aim to scare off and sweep away forever the evil spirits, so that the crops for the next year are rich.
Wine has been known in the land of Bulgaria since Ancient times. Archeology, folklore, and literature provide ample evidence that wine grapes have thrived in these lands ever since the late Stone Age: grape growing and wine making were vital to the way of life of the Thracians, Romans, Greeks, Slavs and Bulgarians.

Unique Bulgarian wines are: Mavrud, Gamza and Melnik.
Rose oil

Bulgaria is one of the biggest producers of rose oil in the world. The reason for this is hidden in the high qualities of the Bulgarian Kazanlak rose (‘Kazanlashka roza’), a special type, that was cultivated in our country after many years of production and development. The Bulgarian roses are inheritors of the so called Damascena rose, that was brought here ages ago. Each year right before the rose harvesting season the town of Kazanlak hosts the Festival of Roses.
Kiselo mlyako – Bulgarian yoghurt

The Bulgarian yoghurt is famous for its bacterium, called Lactobacillus Bulgaricum, is observed in natural state only in Bulgaria. Thanks to this bacterium the quality of yoghurt produced through natural fermentation is so good and so distinctive that the product is exported simply as Bulgarian Yoghurt. Licenses and know-how for its production are currently used by companies in Japan, Germany, Switzerland, Finland and South Korea.

Sirene – Bulgarian cheese

Bulgarian cheese is traditionally made of cow or sheep milk. It is a typical Bulgarian food that goes well both with fruits, vegetables and wine.

Bob v garne – Bean in an earthenware pot

This is a traditional Bulgarian dish that can be tasted in every typical Bulgarian restaurant. It is prepared from beans, peppers, onion, tomatoes and savory and/or mint.
Banitsa - Baked cheese pastry

Banitsa is a traditional Bulgarian pastry made of eggs, flour and cheese. You can taste different variations of banitsa all around the country. It can be eaten for breakfast or as a dessert.

On New Year’s Eve there is a tradition to serve banitsa with hidden fortune tickets inside. It is believed that the wishing, written on the ticket you find in your piece of banitsa (for example: 'health', 'love', 'joy', 'marriage', 'child', etc.) will show your luck for the coming year.
Shopska salata – Shopska salad

The first thing you will notice in the salad menu of every Bulgarian restaurant will be Shopska salata. It is prepared from tomatoes, cucumbers, baked peppers and white Bulgarian Cheese and is perfect in the summertime, when all the ingredients are freshly picked from the garden.

Bulgarian honey

Honey is a traditional Bulgarian product. It has been produced in Bulgaria for more than 3000 years. Bulgaria has excellent conditions for the production of honey: a clean nature, a mild climate and a richly forested land. Numerous types of blossoming plants and trees make for a variety of subtle honey flavors. A lot of the healing properties of the herbs and plants the nectar is gathered from, are present in the honey and propolis. Honey products are 100% absorbed by the human organism. For best results one must consume between 50 and 100 grams daily.
Bulgarian herbs

Herb gathering in Bulgaria has a long tradition, dating back to Ancient times. More than 3000 different types of plants grow on the sunny slopes and in the shady forests of Bulgaria’s four great mountains. Over 300 of these plants are used in the pharmaceutical industry, while 750 types are used in alternative medicine. Some of the most popular herbs are mint, chamomile, thyme, lavender, wild marjoram and St. John’s wort.
